Welcome to Herrington View

Here you'll find a stunning collection of two, three, and four-bedroom homes in Penshaw, on the edge of Herrington Country Park and neighbouring the historic Penshaw Monument. Each home has been carefully designed to complement the character of the area and is ready to be enjoyed by your family for many years to come.

[→ View the site plan](#)

A large photograph of the Penshaw Monument, a classical-style building with columns, situated on a grassy hill. The monument is framed by lush green trees and a fence in the foreground. The sky is overcast with soft light.

Love village life

A vibrant village surrounded by lots of open green space, but just a 15 minute drive to the city of Sunderland, Penshaw really does offer the best of both worlds.

Spend your days enjoying Penshaw's abundance of restaurants, shops and bars, or take to Herrington Country Park to explore its trails, lake, and parks. You can embrace a truly balanced lifestyle at Herrington View.

Personalise your home

A new Taylor Wimpey home is a blank canvas, ready for you to put your stamp on even before you move in. You can choose from a range of high quality options for your kitchen, bedroom and bathroom to suit your taste – and all from the comfort of your sofa. We offer dark and light kitchen units and patterned or plain tiles for your bathroom, so whatever your preferred style we've got you covered.

Using our innovative Options Online tool, you can visualise your new home room-by-room and customise each as you go. You can also choose your options with the help of your Sales Executive if you'd prefer.

Our customers have created some fantastic spaces in their homes and you can get inspiration from their choices by following us on Instagram. You can also check out a host of interior design tips on our website.

[→ Find out more](#)

Options availability is subject to build stage of plots and options won't be available if plots have reached a certain build stage. Please contact the Sales Executive for further information.

Included as standard

From the external features to the finishing touches, every detail of our homes is designed with our customers in mind.

While you'll have the choice to upgrade some of our standard offerings, all of our houses are fitted with a range of high quality features at no extra cost to you.

You'll find a complete list of all items that come as standard in your house below.

Kitchens

All of our kitchens are fitted with beautiful units and worktops and you can choose your preferred style and colour to create your perfect cooking and entertaining space.

A range of accessories including stylish splashbacks, a stainless steel sink and Zeno Taps, and lighting give your kitchen a clean, contemporary finish. You'll get a modern, energy efficient Electrolux oven with built-in gas hob and integrated hood and extractor fan too.

Utility rooms[†]

Units will be fitted to match your chosen kitchen style, complete with a stainless steel sink and single lever chrome taps. If your home has a toilet in the utility room, we'll fit a contemporary white basin and toilet for a sleek finish.

Bathrooms, en suites and shower rooms

Modern white sanitaryware, including toilet, basin and bath with chrome Ideal Standard taps give your main bathroom a clean look. The same sanitaryware is fitted in en suites and shower rooms which also benefit from an Aqualisa shower and glass enclosure. For a distinct look, we offer a varied range of Porcelanosa ceramic wall tiles for you to choose from to make your bathroom and en suite stand out from the crowd.

Garden[†]

The outside of your home is just as carefully considered as the inside. You'll get a fully turfed and landscaped front garden – including plants. The back garden includes a slabbed area and your privacy is protected by a garden fence.

All of the specification listed is included in our houses as standard. For the specification included in our apartments, please see the separate apartment specification list. Standard specifications are correct at time of going to print, but are subject to change without notice. Please contact the Sales Executive for further information. † = Where applicable.

Specification of our houses

Your new low-energy home

Welcome to your brand new Taylor Wimpey home, ready for you to make your own, and designed and built with the highest quality materials and specifications. In accordance with the latest building regulations, your home includes a variety of energy-efficient features to help you save energy, lower your bills and reduce your carbon footprint.

What are the new building regulations?

The latest building regulations sets the minimum standards for the energy efficiency and ventilation of new buildings. These standards are designed to make significant improvements to the construction of new homes.

The improvements included in your home

Our homes include a range of energy-efficient features, including triple glazing, electric vehicle chargers*, solar panels* and waste water heat recovery. Each of these features help to reduce the energy required to run your home without compromising on comfort or convenience.

The benefits to you

With all these features in your new home, you'll reap the rewards from the day you move in. Better insulation and sustainable energy sources mean a lower carbon footprint and lower energy bills.

Options availability is subject to build stage of plots and options won't be available if plots have reached a certain build stage. Please contact the Sales Executive for further information.
*Selected plots only

Features you might find in your new home

Your new home will include a variety of energy-efficient features to help you save energy and reduce your carbon footprint, including:

Well-insulated building fabric

Better insulation in your walls and roof and high-performance glazing means your home loses less heat in winter, and it cools down slower in summer, so you'll always enjoy a comfortable temperature.

Energy-generating solar panels

With solar panels, your home can generate its own renewable energy to generate a proportion of your home's electricity requirements.

Appliances

Your home will have modern, energy-efficient appliances that allow you to enjoy all the comforts of home, whilst helping to keep your carbon footprint down.

Scan the QR code for an interactive experience

Waste water heat recovery

Uses heat from waste water to save energy.

Waste water heat recovery takes heat from the water that goes down the drain when you shower and uses that heat to pre-warm cold water from the mains via a heat exchanger (pipe) system.

The system can increase the temperature of mains cold water by up to 15 degrees, meaning less energy is needed to heat the water you use, which in turn lowers emissions and energy bills.

A waste water heat recovery system has no moving parts and there is no additional maintenance than you'd expect for a normal drainage system.

Scan the QR code for an interactive experience

Thermal lintel

A load bearing beam placed across doors and windows designed to reduce heat loss.

Lintels are beams, typically made of steel, which are placed above windows and doors to support load from above. Thermal lintels are up to five times more thermally efficient than a steel lintel. They have an integrated polymer isolator, which helps to prevent heat escaping from the inside of your home to the outside. This helps to increase the energy efficiency of your home.

We use triple glazed windows to deliver maximum heat retention. They are more energy efficient than double glazed, as they use three panes of glass to reflect more heat back into your home to prevent it from escaping outside.

Taylor Wimpey

See Inside Our Thermal Efficient Homes

We work hard to make a new home airtight by preventing heat loss through the windows, doors, walls, roof, and floor. These measures can help to save money on energy bills and create a more comfortable and energy-efficient home.

Convert Sunlight Into Electricity For The Home

Sleek solar photovoltaic (PV) systems are integrated into the roof to provide a renewable source of energy. Low maintenance and with no moving parts, the solar PV panels will generate a proportion of your home's electricity requirements, reducing its energy demand and reliance on the grid.

1. Light
The Sun Gives off light, even on cloudy days

2. The Panels
Solar Photovoltaic (PV) cells on the panels turn the light into DC electricity

3. The Inverter
The current flows into an inverter which converts it into AC electricity ready to use

4. The Electricity
The current is fed through a meter and then into your homes consumer unit. The meter will measure all of the electricity generated by the solar PV system

5. Powering the Home
Plug in and switch on. Your system will automatically use the free electricity you've generated, then switch back to the grid as needed

6. The National Grid
Any electricity you don't use is exported to the grid for others to use.

*Plot specific windows. The floor plans depict a typical layout of this house type. For exact plot specification, details of external and internal finishes, dimensions and floor plan differences consult your sales executive. All dimensions are + or - 50mm and floor plans are not shown to scale. The kitchen layout and furniture positions are for indicative purposes only and it is from an imaginary viewpoint within an open space area. Its purpose is to give a feel for the development, not an accurate description of each property. The illustration shows a typical Taylor Wimpey home of this type, but there are, however, variances from site to site. External materials, finishes, landscaping and the position of garages (where provided) may vary throughout the development. Properties may also be built handed (mirror image). Images may include optional upgrades at an additional cost. Please ask for further details. The sq ft / sq m stated is the net sales area described in the RICS Code of Measurement 6th Edition. It is the area of the building measured to the plaster finish of the perimeter walls at each floor level. The measurement includes internal walls, service boxings and voids over stairs. It excludes internal garages and areas with less than 1.5m headroom. 73645 TWNE / November 2024.
